

Wireless charging body temperature ECG smart watch

High-end wrist health butler

ECG Collector | AI Medical Diagnosis |
360°*360° HD Large Screen | Accurate Blood Oxygen
Body Temperature Monitoring | Wireless Charging |
Heart Rate Blood Pressure Monitoring | Respiratory Rate Monitoring
Sleep Monitoring | Custom Dial

All in one Craftsmanship

Classic minimalist appearance, metal alloy + stainless steel shell to highlight the texture

Skin-friendly TPU material strap/leather strap, accompany you to sweat fearlessly

Built-in a variety of dials, switch at will

1.32-inch large color screen **Clear and delicate Realistic and natural**

1.32-inch full circle touch HD screen the field of view is more natural
Compared with ordinary Smartwatch on the market
our screen is larger and has higher resolution.
Better color saturation reproduction ability,
true color breakthrough, stunning as far as the eye can see

360*360_{px}

New low-power chip

Equipped with ultra-low power Realtek 8762DW wearable chip
N times faster than the average Bluetooth watch chip in
terms of graphics processing and computing speed

Equipped with high precision gravity sensor to
accurately record your every movement

280mAH high-density polymer lithium-ion battery

Achieve lower power consumption computing,
standby 30~40 days, normal use 7~12 days

Realtek
8762DW

Wireless charging Ultra-long battery life

Wireless more comfortable, each time you only need to
put down the watch, waiting for a full charge, enjoy life
Built-in fast charging chip, multiple security protection
safe and stable, more convenient to carry
Newly upgraded low-power AI algorithm, so that
the watch battery life is once again improved

280 mAh

Battery Capacity

30~40 Days

Standby time

7~12 Days

Typical usage scenarios

No need for a cell phone

Check blood pressure directly

Inter-wrist blood pressure data, one-touch monitoring,
raise your wrist to view blood pressure data
Accurately monitor the trend of blood pressure changes to
monitor and warn of blood pressure abnormalities
Timely control of body changes, balance work and rest.

This product is not a medical device,
the data is for reference only and cannot be used as medical data

High heart rate warning 24-hour automatic monitoring

OSRAM 2703 chip, combined with intelligent heart rate algorithm

Both resting heart rate and exercise heart rate can be accurately monitored

Through scientific quantification of the big data can see the daily heart rate curve

Guarding your physical and mental health

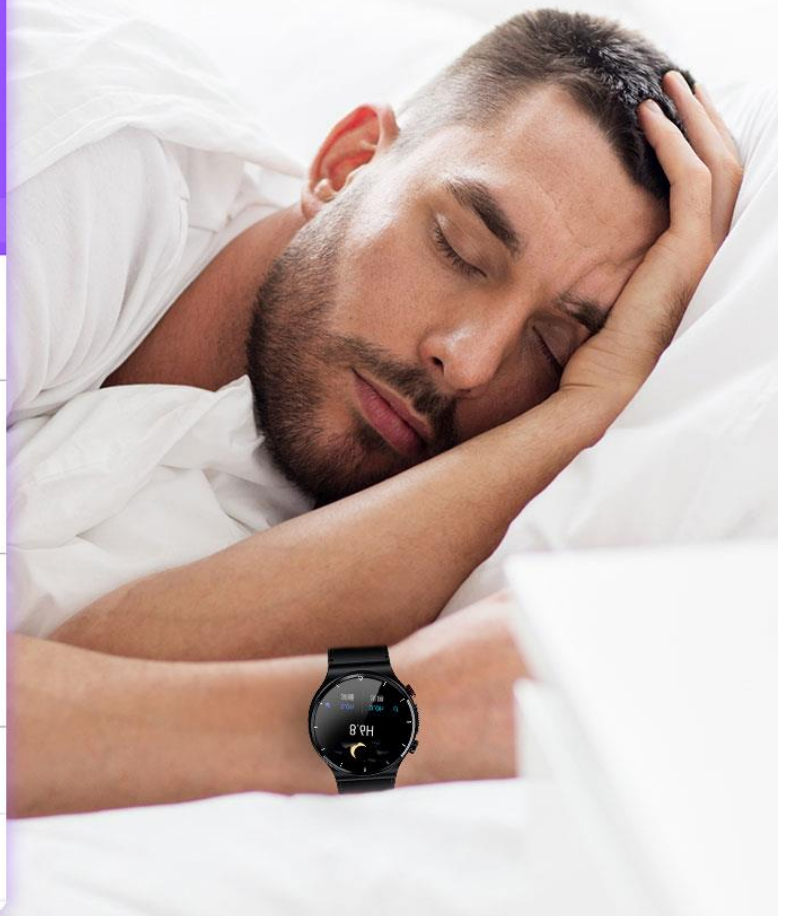

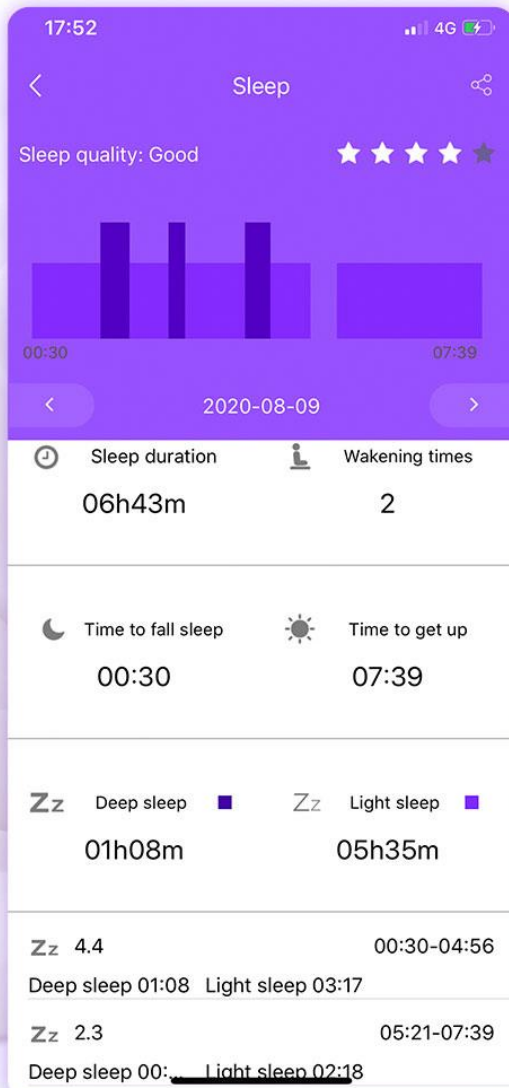

Science of Sleep

Record the complete sleep structure

Full monitoring of sleep quality, monitoring your sleep time as well as sleep quality

In-depth understanding, deep sleep, light sleep, awake, etc., and also

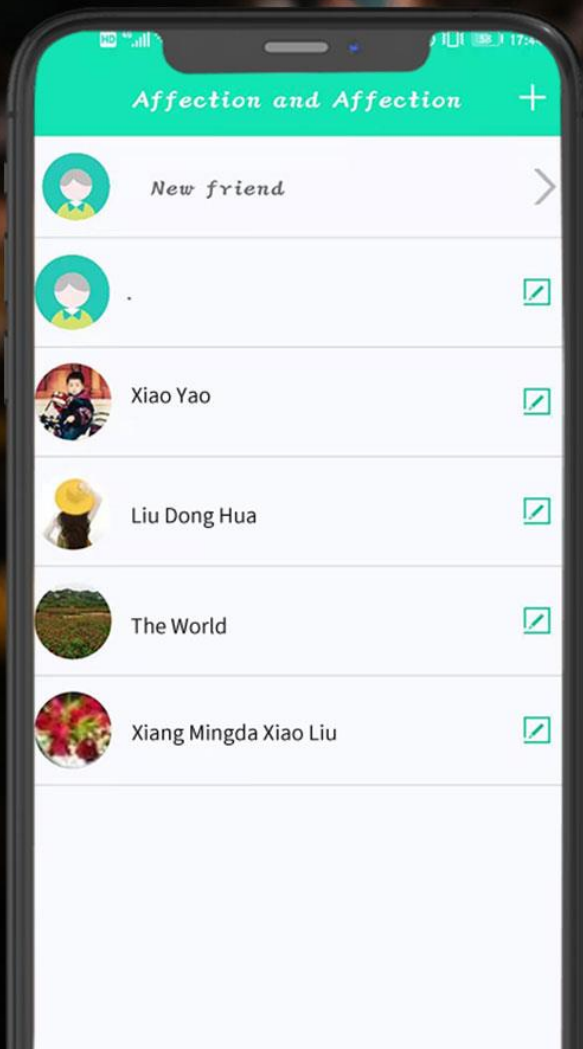

Learn about sleep history through APP

Remote care for friends

Exercise and health of family members

After binding the APP, the data can be synchronized with the APP, so that you can follow each other with your family or friends. You can check the exercise or health data report of your friends and relatives remotely at any time, so that you are far away from home. Not worry about your parents at home and affect your work.

All day activity tracking Convenient Life Assistant

Steps, calories, mileage, medium to high intensity exercise time, etc.

Daily activities, 24/7 tracking, every little bit counts

SMS, email, calendar, weather, alarm clock, social apps

Reminder of new messages, important information is not missed

Many small functions to reduce the burden and add energy to life

Bluetooth Photo

Click the watch to keep the beautiful moment
Capture the moment at any time
Easily frame every smiling face

Wake up alarm

Built-in vibration motor can make you from Sleeping gently being woken up

Weather Forecast

Automatic updates by synchronizing with your phone
weather conditions for the day

Product parameters

- / Display screen: 1.32-inch high-resolution 360*360 screen
- / Charging method: Wireless Charging
- / ECG chip: Ti1291
- / Oximetry chip: OSRAM (Osram) 2703 chip
+ Analog front-end processing chip HX3690
- / Acceleration sensor: STK8321
- / Bluetooth: 5.0BLE (Low power consumption)
- / Waterproof: IP68 rated dust and water resistant
- / Battery capacity: 280mAh
- / System: Android 4.4 and above, iOS 8.2 and above
